

PRODUCT DESCRIPTION

Stonkleen TD9 is a heavy-duty buildup remover that can effectively remove tire marks found on floors in manufacturing and warehouse facilities. It can also be used as a heavy-duty degreaser of petroleum oils and metal oxides.

TYPICAL USES

Stonkleen TD9 is used in manufacturing facilities to remove tire marks. Effectively removes grease and oils from vinyls and other hard surfaces.

DIRECTIONS FOR USE

For cleaning heavy buildup accumulations.

- Dilute 32 ounces of Stonkleen TD9 to each gallon of water
- Apply to floor surface with mop or autoscrubber
- For tire marks a buffing machine equipped with a white scrubbing pad is recommended
- Rinse with water
- Repeat as needed

For normal accumulation.

- Dilute 12 ounces of Stonkleen TD9 to each gallon of water
- Apply to floor with mop or autoscrubber
- Rinse with water
- Repeat as needed

Note: When dealing with very heavy buildup such as tire marks it may be necessary to let the Stonkleen TD9 sit on the buildup for 5-10 minutes before buffing with a Clark or automatic floor scrubber.

PACKAGING

Stonkleen TD9 is a concentrated liquid and is available in:

- (4) 1 gallon containers (FG#8013A41)
- or
- (1) 5 gallon container (FG# 8013A5)

STORAGE CONDITIONS

Store Stonkleen TD9 between 60-85F/16-30C. Keep from freezing.

APPLICATION

Stonkleen TD9 can be used with a mop, scrub brush or automatic floor machine.

RECOMMENDATIONS

The dilution ratios stated are approximations. Adjust your dilution ratio to optimize cleaning performance or to effect greater economy.

NOTES

- Material Safety data sheets are available upon request.
- A staff of technical service engineers is available to assist with installation or to answer questions related to Stonhard products specifically, or flooring problems in general.
- Requests for technical service or literature can be made through local sales representatives and offices, or corporate offices located worldwide.
