

PRODUCT DESCRIPTION

Stonkleen SG2 is a chlorinated cleaner containing 0.02% Sodium Hypochlorite plus cleaning agents that clean and oxidize organic soils. Chlorine bleach is still the most relied upon chemical to protect public health. It is suitable for use on most surfaces cleaned with detergent and water.

TYPICAL USES

Stonkleen SG2 is used in the public sector for disinfecting needs and is designed for food service areas, restroom hygiene programs and institutional sanitation programs.

DIRECTIONS FOR USE

- Apply Stonkleen SG2 Chlorinated cleaner to the surface of the floor using a spray applicator or a mop.
- Allow the cleaner to soak for 3-5 minutes, then damp wipe and rinse.
- For stubborn soils, agitate.
- Repeat if necessary.

Note: If daily disinfecting is desired, dilute 0.5 ounce of Stonkleen SG2 with one gallon of water.

PACKAGING

Stonkleen SG2 is available in units.

Each unit consists of:

(4) 1 gallon containers (FG#8009A41)

or

(1) 5 gallon container (FG# 8009A5)

STORAGE CONDITIONS

Store Stonkleen SG2 between 60-85F/16-30C. Keep from freezing.

APPLICATION

Stonkleen SG2 can be used with a mop, scrub brush or automatic floor machine.

RECOMMENDATIONS

Adjust your dilution ratio to optimize cleaning performance or to effect greater economy.

NOTES

- Material Safety data sheets are available on request.
- A staff of technical service engineers is available to assist with installation or to answer questions related to Stonhard products specifically, or flooring problems in general.
- Requests for technical service or literature can be made through local sales representatives and offices, or corporate offices located worldwide.
