

## Stonhard Transforms Dental Practice with Stunning Stoncrete EFX

**Products Used:** Stoncrete® EFX

**Application Area:** Dental Office

### PROBLEM

In search of an elegant flooring solution for her well-established Farmington, Connecticut dental practice, Dr. Mitra Kabakoff initially opted for luxury vinyl tile. However, midway through the project, she became dissatisfied with the results and decided to pause installation. Subsequently, she turned to Stonhard and chose the visually captivating Stoncrete EFX troweled epoxy mortar flooring system for the second floor of her facility.

The project was not without its unique challenges, as installers discovered a large hump in the substrate's surface throughout the facility's waiting and patient rooms caused by an I-beam.

### SOLUTION

Alternating nighttime preparation sessions with daytime installations, the Stonhard crew removed the existing deteriorated slab of self-leveling underlayment and glue. Prior to the installation of Stoncrete EFX, Stonproof ME7 and RH7 urethane membranes were used to bridge a large joint as well as cracking throughout the space.

With its unique decorative aggregates mimicking the look of polished concrete, Stoncrete EFX is formulated for commercial spaces like this

dental practice where there is a demand for long-lasting durability and performance with an attractive, upscale look. In Urban Scape with 100% mirror glass aggregate, Dr Kabakoff's office now exudes a warm and natural aesthetic with an added bit of sparkle.

### DESIGN ELEMENTS

Color: Urban Scape

Aggregate: 100% mirror glass

### OUR CERTIFICATIONS & MEMBERSHIPS
