

Stonhard Provides World-Class Flooring Solution for College's Culinary Building

Products Used: Stonclad® UT • Stonfil® OP2 • Stonproof® ME7 • Liquid Elements® Reflect®
Application Area: Training Kitchen • Event Center Area

PROBLEM

The Los Angeles Trade Technical College (LATTC) operates one of the oldest culinary schools in the nation. Seeking to create a world-class space for students and visitors, they knew their floors would need to be durable and long-lasting for the commercial kitchen space and decorative with the ability to withstand heavy foot traffic in the event center.

With 42,000 sq. ft. to cover, along with leveling and crack issues to address, Stonhard had a lot of ground to cover.

SOLUTION

Starting with the concrete slab, Stonhard applied a resin floor primer, Stonfil OP2, to mitigate potential moisture issues. A urethane waterproofing membrane, Stonproof ME7, was then applied as a crack-bridging isolation layer. Preparation procedures like these ensure the flooring system looks and performs as expected for many years to come.

Stonclad UT, a troweled polyurethane flooring system, was recommended for the busy culinary training kitchen, as it stands up to spills, organic acids, aggressive cleaning, and chemicals. It is also a seamless and sanitary floor that provides slip resistance and long-lasting durability.

For the building's event space, Reflect metallic epoxy flooring system was selected from Stonhard's luxury flooring brand, Liquid Elements. Reflect provides extraordinary design, resilience for comfort underfoot, and noise reduction.

DESIGN ELEMENTS

Stonclad UT: Quartz aggregate, 'Charcoal' color
Reflect: Hammered finish, 'Black Vortex' color

OUR CERTIFICATIONS & MEMBERSHIPS

Stonhard is a member of the U.S. Green Building Council and is on the Manufacturer Advisory Panel for the HPD Collaborative. Stonhard carries an ISO 9001 quality system certification.

THE STONHARD DIFFERENCE

Stonhard is the unprecedented world leader in manufacturing and installing high-performance seamless, resinous floor, wall, and lining systems. With more than a century of experience, Stonhard provides its customers with a single-source warranty covering both products and installation.
