## Seamless Floors Find A Place in the School Lunch Room

Products used at Palmyra High School  
• Stonblend® GSI • Stonseal® CF7

hard Territory Manager, who along with Stonhard's Construction Management Group, would see the project through from start to finish.

Palmyra High School had many requirements. The hallway and locker room floors would have to stand up to daily abuse from soccer cleats, book carts, and hallway traffic jams. The cafeteria would need superior protection from constant impact by wheeled carts and heavy machinery within the food preparation area as well as continuous foot traffic and daily wash-downs in the food service area. Upon evaluation, Stonhard's skilled team recommended Stonblend GSI, a product that offers a unique decorative tweed appearance with a workable, low-gloss finish, moderate degree of slip-resistance, and superior stain and wear resistance. An attractive, smooth, seamless finish with Stonseal CF7 ensures quick

In recent years there has been a transformation in the way we think about the design of educational spaces. It is now understood that bleak, functional spaces do not promote the desired atmosphere for learning and creativity. Learning environments need to welcome and inspire students, faculty, parents, and community members. Form and function are important, but with flooring solutions from Stonhard, schools like Palmyra High School, don't have to sacrifice design. Palmyra High School of Lebanon County, Pennsylvania, had been struggling with maintenance issues in their cafeteria and hallways for ten years. Cleaning procedures and issues with stained and yellow epoxy floors had become so severe that they were in need of a complete renovation.

and easy cleaning procedures with no need for routine waxing, saving both time and resources.

Stonblend GSI allows for sophisticated patterns and color blends as well as custom logos. Palmyra High School chose a neutral color scheme for the hallway areas and for the cafeteria food service area, subtle shades of brown and orange were used to achieve a warm, sophisticated look. In the din-
