## Stonhard Floors Help to Transform a Community Homeless Center

Samaritan Center, located in Syracuse, New York, is a nonprofit 501(c)(3) interfaith effort of community members committed to serving the hungry and those in need. Since 1981, the Center has provided hot meals to the homeless, as well as case management support and access to community services. It serves more than 65,000 meals annually.

Recently, the Center underwent a renovation within its 4,700 sq. ft. facility, with the goal of creating a clean and seamless space for hundreds of guests to congregate and eat. The Center sought a product that offered superior resistance to slips, abrasion, and fire.

Stonhard recommended Stongard MD, a high-performance waterproofing membrane with additional slip resistance and a stylized, decorative quartz design.

During installation, Stonhard removed the existing vinyl composite tile from the floor's plywood substrate. First, Stonproof ME7, a two-component, liquid-applied urethane waterproofing membrane with excellent bond strength, was applied.

## THE STONHARD DIFFERENCE

Stonhard is the unprecedented world leader in manufacturing and installing high-performance polymer floor, wall and lining systems. Stonhard maintains 300 Territory Managers and 175 application crews worldwide who will work with you on design specification, project management, final walk through and service after the sale. Stonhard's single-source warranty covers both products and installation.

Stonhard removed worn vinyl composite tile and installed Stongard<sup>®</sup> MD for long-lasting performance.

Stongard MD, in a woodsmoke color, was then installed, providing the Center and its occupants a clean, seamless, and easy-to-maintain surface for years to come.

"All of the guests love the new flooring," James R. Miller, Jr., the project's architect, said. "Everyone at the Samaritan Center said [the installation] went great and the new floor looks amazing."

Stonhard's crew worked around the clock during the two-week renovation to ensure a successful transformation.
